To: Whom it may concern

In regards: Veronica Tingzon

It is with great enthusiasm that I write this letter of support for Veronica Tingzon. Veronica was my student in mathematics 64, intermediate algebra in spring 2016 and earned an A in every exam in the class. She is one of the best students I have ever had. Veronica worked very hard to make sure she understood every subject deeply and completely, so she could help other students in class. She demonstrated a very good understanding of the course material, and I referred her to the tutoring center at MiraCosta College so she can work as a math tutor and help other students. Furthermore, I hired Veronica as an in-class tutor for "Bridge to Success in Math Program" where she helped students get prepared for the Mathematics Placement test at MiraCosta College. Veronica is a very friendly person and it is a pleasure to have a person of her character and ability in my class and the Bridge to Success in Math Program.

Veronica Tingzon is extremely passionate about learning. Her set of skills, love for learning, and dedication to do well and help others is transformational and makes her the perfect candidate for the scholarship award.

In conclusion, I strongly recommend Veronica Tingzon for the scholarship for Women in Math and Science. I believe that she deserves to receive the scholarship for her hard work, passion for learning and helping others, commitment, and enthusiasm. If you have any further questions regarding Veronica Tingzon feel free to contact me at any time.

Sincerely,

Leila Safaralian, Ed.D.

Mathematics Instructor

Chair, Math Pre-Transfer Committee

Leader, Bridge to Success in Math Program
