**Re: Letter of Recommendation/Reference Request for CSULA – School of Nursing**

To whom it may concern:

With immense pleasure, I write to highly recommend Caitlin Hume, who is applying for your Accelerated Bachelor of Science in Nursing Program. Caitlin joined my engineering firm approximately 2 years ago as part of an acquisition in San Diego County. With the acquisition of the firm she was working for, she and 20 other employees were integrated into our national firm to provide engineering services.

In this capacity, Caitlin provided business development and marketing support to our engineering managers. From the first day I met Caitlin, I found her to be most welcoming to the integration and change. She is very hardworking and dedicated to the engineering industry to help our firm meet our sales and growth goals. She was always eager to learn and embrace new ways to improve and offered to us her best practices as well.

I genuinely admire Caitlin's marketing skills and abilities. She approached every task with excitement and energy. She is naturally compassionate and caring and was highly dependable as we always have tight reoccurring deadlines on project pursuits.

Caitlin's dedication and commitment to the engineering profession, coupled with her commitment to advance her nursing career is commendable. She will make a welcome addition to your Accelerated Bachelor's program. I firmly believe that she will make lasting contributions to the nursing program.

If you require any additional details or have any concerns regarding her skills and qualifications, you may contact me at (602) 769-0716.

Sincerely,

John A. Derr, PE.
